

Anti- bax

Product: Anti-human bax monoclonal antibody.

Description: The immunogen for the anti-h bax was a synthetic peptide corresponding to amino acids 3 to 16 of the human bax sequence. Bax expression is associated with cell death regulation. The ratio of bax to other bcl-2 family members is believed to regulate apoptosis.

Isotype: Mouse IgG1

Clones: 2D2

Applications: Western Blot 1:10,000

Presentation: 100 µg IgG purified from ascites.

Formulation: Provided as 0.2µm sterile filtered solution in phosphate buffered saline with 0.08% sodium azide.

Cross Reactivity: Cross reacts with human.

Storage: Antibodies should be stored at -20°C. Aliquot to avoid freeze/thaw cycles.

Stability: Antibodies are stable for one year from purchase if stored frozen.
