

Mouse anti-m bcl-2

Product: Anti-mouse bcl-2 monoclonal antibody.

Description: The immunogen for the anti- mouse bcl - 2 was a synthetic peptide corresponding to amino acids 61 to 76 of the mouse bcl-2 sequence. Bcl-2 expression is associated with cell survival. The ratio of bcl-2 to other bcl-2 family members is believed to modulate apoptosis.

Isotype: Mouse IgG1

Clone: 10C4

Application: Western Blots at 1-10 ug/ml

Formulation: Provided as 0.2µm sterile filtered solution in phosphate buffered saline with 0.08% sodium azide.

Presentation: 100 µg IgG purified from ascites.

Cross Reactivity: Cross reacts with mouse and rat.

Storage: Antibodies should be stored at -20°C. Aliquot to avoid freeze/thaw cycles.

Stability: Antibodies are stable for one year from purchase if stored frozen.
