

Anti-h Cyclin D1

Product: Anti-human Cyclin D1 monoclonal antibody.

Description: The immunogen for the anti-human Cyclin D1 was a recombinant Cyclin Dd1 protein. This antibody recognizes a protein of 36kD and is a key cell cycle regulator and a putative proto-oncogene overexpressed in a wide variety of human neoplasms. DCS6 neutralizes the activity of Cyclin D1 *in vivo*.

Isotype: Mouse IgG2a

Clones: DCS6

Applications: Western Blot, Immunohistochemistry, Immunoprecipitation.

Presentation: 100 µg IgG purified.

Formulation: Provided as 0.2µm sterile filtered solution in phosphate buffered saline with 0.08% sodium azide.

Reactivity: Reacts with human.

Storage: Antibodies should be stored at -20°C. Aliquot to avoid freeze/thaw cycles.

Stability: Antibodies are stable for one year from purchase if stored frozen.
