

Anti-h Cyclin D2

Product: Anti-human Cyclin D2 monoclonal antibody.

Description: The immunogen for the anti-h-Cyclin D2 was a his-tagged recombinant full length Cyclin D2 protein recognizing a 34 kD protein. Cyclin D2 is a G₁ cyclin required for a G₁ phase progression. Like Cyclin D1, it is activated by the same mechanisms. It is well suited for neutralization of Cyclin D2 activity *in vivo*.

Isotype: Mouse IgG2a

Clones: DCS3.1

Applications: Western Blot, Immunohistochemistry, Immunoprecipitation

Formulation: Provided as 0.2µm sterile filtered solution in phosphate buffered saline with 0.08% sodium azide.

Presentation: 100 µg IgG purified.

Reactivity: Reacts with human, mouse, and rat

Storage: Antibodies should be stored at -20°C. Aliquot to avoid freeze/thaw cycles.

Stability: Antibodies are stable for one year from purchase if stored frozen.
