

Sheep anti- human Myeloid Tumor Related Gene (MTGR1) (AML1-MTG8 binding protein or ETH)

Product: Sheep anti human MTGR1 also know as AML1 MTG8 binding protein or ETH a member of the MTG8/ETO gene family. .

Description: Myeloid tumor related gene (MTGR1) is found deleted in acute myeloid leukemia. Overexpression of MTGR1 can stimulate AML1-MTG8 to induce G-CSF-dependent proliferation of L-G cells and to interfere with AML1-dependent transcription. AML1/MTG8 functions as a complex with MTGR1 and that the complex might be important in promoting leukemogenesis.

Applications: Western Blot suggested dilution 1- 10 ug /ml

Presentation: 250 µg Ig purified

Formulation: Provided as 0.2µm sterile filtered solution in phosphate buffered saline with 0.08% sodium azide.

Reactivity: Human

Storage: Antibodies should be stored at -20°C. Aliquot to avoid freeze/thaw cycles.

Stability: Antibodies are stable for one year from purchase if stored frozen.
